

drum4fun

One of our most popular, interactive and fun filled events – an excellent and truly unique experience, guaranteed!

A great ice breaker, end to a conference, fantastic team building exercise, or brilliant evening entertainment for all.

Using Brazilian Samba rhythms and World Music Instruments we transform your group into a Samba band. Within minutes everyone has an instrument and lead by our percussionist facilitator you will be beating the drums, banging the bells and shaking your hips!

The percussive instruments we use are from Ireland, Egypt, Cuba, Brazil and India, all of which bring out your sense of creativity, rhythm and fun! Fusing world rhythms with Irish rhythms this creates a very special sound, which we can arrange to be captured on audio or videotape for you to enjoy again.

If you would like a Trumpet, Fiddle, or Traditional Irish Flute player to join in and jam with your new band at the end this can also be arranged.

How It Works:

We book a venue to suit your group size and tastes. When you arrive all the Drums are arranged in a Drum Circle and our Drum facilitator gets you playing immediately. We can organise finger food at the venue and/or a nightclub after.

Sample itinerary

18.30: Arrive Renards for drinks and Finger Food
19.45: Move to Club where we turn you into an amazing Samba Band
21.30 – 3am – stay on and continue the fun!

Optional Extras:

We can book musicians to 'JAM' with your group for a grand finale. Why not Video the event and receive your own personalised DVD of your in house Company Samba Band.
